Inaam KABBARA | Cybersecurity Analyst | Seeking Permanent or Fixed-Term Contract

Paris, France | Portfolio : Inaam-kabbara | E-mail : inaam_kabbara@hotmail.com | LinkedIn : inaam-kabbara

Cybersecurity analyst seeking a full-time (CDI) or fixed-term (CDD) opportunity, with expertise in incident management, penetration testing, and security automation. I am skilled in leveraging advanced tools such as SIEM and ELK Stack to enhance IT system security and resilience.

Education

Master's Degree:
- 2024 | Paris - France | EPITA University | master's degree in computer science - Specialization in Cybersecurity.
- 2018 | Beirut - Lebanon | Lebanese International University | master's degree in computer science.

Certifications

AI & Machine Learning: AI For Everyone (2024), Machine Learning Specialization (2024)
Cybersecurity: Google Cybersecurity Professional Certificate (2024)

Projects

Cybercrime Analysis on the Hard Disk of a Linux Server
- Conducted in-depth threat analysis and investigation on a compromised Linux server.
- Analyzed log data to compile a comprehensive report.
- Detailed case study on potential system compromise.

Professional Experiences

Cybersecurity and AI Automation Analyst (Internship) - *Ubility (07/2024 – 12/2024)*
Internship Topic: Adapting LLMs for Autonomous Security Response
- Studied the automatic adaptation of Large Language Models (LLMs) in an IT environment to optimize security operations.
- Analyzed mechanisms that allow LLMs to learn autonomously with minimal human effort.
- Objective: Utilize LLMs for autonomous response to cybersecurity threats.
- Applied LLMs to enhance incident detection and automated response.

IT Specialist - *Al-Baddawi Primary Mixed School (Public School), Lebanon (09/2016 – 08/2022)*
- Resolved complex IT issues.
- Developed secure solutions for the school infrastructure.
- Provided training and technical support to educational staff.

Professional Skills

Operational Security: Incident Management, Identity and Access Management (IAM), SIEM, AI-based Threat Detection, Security Automation.
Testing and Simulations: Penetration Testing, Red Team and Blue Team Exercises, Automated Penetration Testing with AI, Threat Detection.
Cryptography: Cryptanalysis, Data Encryption, Cryptography.
Data Analysis and Visualization: Vulnerability Analysis, Security Audits, Risk Management and Assessment, Dashboard Development with ELK Stack.
Forensics and Legal Informatics: Forensic Analysis, Malware Analysis, Explainable AI (XAI) for Digital Forensics.
Artificial Intelligence and Automation: Adapting LLMs for Threat Detection and Response, Automating Security Alerts via Slack.
Operating Systems: Windows, Linux.
Programming: C++, C#, Java, Python, Python for Machine Learning Algorithms.
Soft Skills: Autonomy, Teamwork, Communication, Organization, Adaptability, Time Management, Leadership Skills, Sociability.
Languages: Arabic: Native**, French:** Fluent**, English:** Bilingual.
